**Come and explore the exciting world of Forensics at your school and become a Forensic Scientist for the day. Help to solve the crime and find a missing student!**

Dear Parents/Caregivers,

An exciting and interactive Forensic Science Workshop will be at our school on Monday 25 June (Term 2, Week 9) to present a crime scene for the senior Year 5 and 6 students to solve. Classes will hear the case background and will be able to examine the evidence found at the crime scene. Students will learn the real science that was carried out in the Forensic Laboratories and help to solve the crime just like a real Forensic Scientist. They conduct their own investigation with their class to crack the case! Students will be able to do fingerprinting, build a DNA model, explore with a digital microscope and much more!

"**A Case of Emergency**" is visiting the school for one day only and there is **no cost** for the students to attend as all costs have been paid for by the school.

Mrs Rose Henderson  
Year 6 Classroom teacher

Ms Penny Stavrinou  
Assistant Principal Stage 3

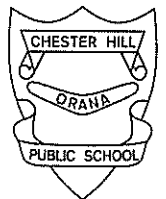

For more information see [www.educationinteractive.com.au](http://www.educationinteractive.com.au) or ask your classroom teacher.
